

Abstract of the Disclosure

A process for localizing online auctions and local or national businesses by zipcodes. with the steps of: Provide a national online auction site, Provide a national business advertisements web site, and Provide many localized, by zip codes, online web sites. Many domain names such as shop91042.com or shop 91011.com would be purchased nationally. All these domains would be incorporated to one or more national web sites. The national web sites would allow members to list items up for auction and will export them automatically to the local shop(any zip code).com web site. memebrs are also able to list items for auctions from the local web site and have it exported to the national web site. Same apply to the the national business advertisers such as the impoting and or exporting nationally and locally of all business listings.
